Conference Background

The rapid advancement of Generative Artificial Intelligence (AI) has ushered in a transformative era in education and research, presenting unprecedented opportunities and complex ethical challenges. In the Indian context, where the National Education Policy (2020) envisions technology-driven, inclusive, and quality education, the integration of Generative AI into teaching, learning, and research has become both imperative and inevitable. However, the adoption of these powerful tools raises critical questions about academic integrity, digital equity, bias, and the very nature of human creativity and critical thinking. This international conference, organised in collaboration with premier Indian and international institutions, seeks to bridge the gap between technological potential and responsible practice by fostering multidisciplinary dialogue on the applications, ethics, and future directions of Generative AI. By bringing together educators, researchers, policymakers, and industry leaders from across the globe, the conference aims to build a collaborative framework for ethical AI adoption, develop innovative pedagogical models, and shape policy frameworks that ensure AI serves as a tool for empowerment, inclusion, and sustainable educational development, ultimately preparing learners and educators for a future where human intelligence and artificial intelligence work in harmony.

Conference Objectives

- To explore and demonstrate the applications of Generative AI in transforming teaching, learning, and research across diverse disciplines.
- To critically examine the ethical challenges, biases, and responsibilities associated with the use of Generative AI in education and academic research.
- To foster interdisciplinary collaborations that integrate Generative AI with fields such as social sciences, humanities, tourism, cultural studies, and teacher education.
- To develop innovative pedagogical models using Generative AI tools for personalized, inclusive, and 21st-century learning environments.
- To promote digital equity and accessibility, ensuring that Generative AI tools benefit diverse learner populations across urban, rural, and under-resourced settings.
- To envision future directions of Generative AI in shaping sustainable, adaptive, and human-centered education and research ecosystems.

Sub-Themes

1. Generative AI in Teaching and Learning – Personalized learning, intelligent tutoring systems, AI-generated content for classrooms
2. Generative AI for Research Innovation – Literature reviews, data synthesis, hypothesis generation, academic writing assistance
3. Ethical and Responsible Use of Generative AI – Academic integrity, bias, privacy, transparency, and accountability
4. Generative AI Across Disciplines – Applications in Social Sciences, Humanities, Sciences, Commerce, Education, and Tourism
5. Future Directions and Policy Frameworks – AI literacy, teacher training, digital equity, and institutional policies

Note: NOT LIMITED TO THE ABOVE THEME

All sections and topics align closely with the conference title and speak to the demands and opportunities of the 21st century.

Thematic or Research-based papers on the above suggested multidisciplinary areas are invited from Academicians, Professors, Teachers, Teacher-Educators, Research Scholars, School Heads and NGOs from various disciplines. Submit your full paper with abstract and keywords, the name of the author/(s), institutional affiliation, and the email address of the author/(s), a recent passport size photograph should be mail to genaiedu2026@gmail.com. The conference will accept only the original manuscript that has not been published anywhere else.

The papers are expected from...

1. Academicians
2. Teacher Educators
3. Teachers from Various Institutions
4. Policymakers
5. Research Scholars
6. Students from Various Departments
7. Non-Governmental Organizations (NGOs) and International Organizations

Conference Proceedings

All the conference papers received will be blind peer reviewed by competent reviewers. The selected conference papers will be published in a book with ISBN. The conference proceeding and certificate will be distributed to the participants on the day of the conference.

S.No.	Publication in Different Books and Journals
1	Conference proceedings (in electronic media) with ISBN
2	Edu - Spectra Journal, Thiagarajar College of Preceptors (Aided), Madurai, India.
3	IJERDE Journal, Centre for Educational Research, Madurai Kamaraj University, Madurai, Tamil Nadu, India.
4	i manager Journal, Nagargoil, Tamil Nadu, India.

Note: All your articles and research papers must be free from plagiarism
